

ECONO-FUEL-MASTER

Model WCB Hot Water Boiler

Now you can keep your home heating costs low by burning either wood or nut-size coal in this high-efficiency hot water boiler.

Designed to supplement your present gas or oil-fired hot water heating system, the Econo-Fuel-Master installs alongside your present heating unit with a minimum of new piping.

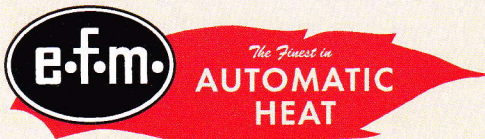

This cost-efficient new heating system provides a practical new approach to energy independence, offering comfort and economy, season after season.

ECONO-FUEL-MASTER FEATURES INCLUDE:

- Automatically-Controlled Combustion
- Airtight, Double-Pass Flue Gas Passage
- Firebrick-Lined Combustion Chamber
- Cast Iron Grates
- 1/4" and 5/16" Thick Steel Plate On Boiler
- 100% Steel Cabinet
- Baked Enamel Finish
- Easily Removed Ash Container
- Factory Set Limit Switch...
Eliminates Overheating
- A.S.M.E. Coded Boiler
- Made in U.S.A.

For supplemental heat with either gas or oil-fired hot water heating system.
ENERGY-INDEPENDENCE, EFFICIENCY AND ECONOMY...
ECONO-FUEL-MASTER DELIVERS IT ALL.
